- Master of Arts
- Graduate Certificate in Public Utility Management and Regulations

Graduate Learning Objectives
After completing the Master’s in Accountancy, graduates will:

1. Apply technical competencies regarding accounting decisions and practices
2. Use data analytics and problem-solving skills within the accounting functional areas
3. Communicate effectively in business and accounting writing and plan and deliver oral presentations
4. Evaluate ethical issues that confront business and accounting professionals
5. Demonstrate effective team work skills

Continuing Professional Education
The UIS Department of Accountancy, Economics, and Finance is officially recognized by the state of Illinois as a sponsor of continuing professional education (CPE) courses for accountants. Information about specific courses and CPE credit can be obtained by contacting the Accountancy, Economics, and Finance Department.

The Master’s Degree
The master’s degree provides advance course work in various accounting topics, research methods, and data analytics, as chosen by the student based on his or her objectives. The MA degree enables students to achieve professional careers in accounting, as well as to assume leadership roles in both the public and private sectors. It also serves students who wish to meet the 150-hour requirement to sit for the CPA examination.

Students interested in sitting for the Illinois CPA examination should be aware of the Illinois Board of Examiners’ requirement of 24 hours of business courses and specific course requirements comprising the required 150 hours. Further information about the exam can be found at http://www.ilboe.org/.

Advising
New students should contact the department for an advising session to plan a program of study that satisfies degree requirements and reflects their interests. Students should also access the Degree Audit System throughout their college career to verify that degree requirements are being met.

Grading Policy
An overall GPA of 3.0 is required in degree-required courses to earn the master’s degree in Accounting.

NOTE: Students also should refer to the campus policy on Grades Acceptable Toward Master’s Degrees section of this catalog.

Requirements

Prerequisite Courses

Foundation Prerequisite Courses

ACC 211 & ACC 212
Introduction to Financial Accounting and Introduction to Managerial Accounting

ECO 201 & ECO 202
Introduction to Microeconomics and Introduction to Macroeconomics

or ECO 315
Economics for Administration

ECO 213
Statistics for Business and Economics

Upper Division Prerequisite Courses

ACC 321 & ACC 322

ACC 464
Auditing Concepts and Responsibilities

Total Hours: 22-24

1. These introductory courses or their equivalents are required prerequisites to gain full admission into the program.
2. A grade of C (2.0) or better must be earned in each Upper Division accounting prerequisites course (grade of C- or lower will not be accepted) for full admission into the Master’s degree program.

Core Courses

ACC 522
Seminar in Financial Accounting

ACC 523
Advanced Financial Accounting

ACC 524
Advanced Auditing

ACC 535
Advanced Accounting Information Systems

ACC 536
Data Analytics in Accounting

ACC 544
Advanced Corporation and Partnership Taxation

ACC 563
Commercial Law I

ACC 583
Accountancy Capstone

Graduate Electives Courses

Electives: Options include any 500-level ACC, BUS, HCI, HRM, or MIS courses.

Total Hours: 30

1. ACC 509 and ACC 505 are exclusively for the MSF and MBA programs, and courses are not accepted as meeting requirements toward the Accounting graduate degree. Students may also choose a 500-level PAD or HMS course pre-approved by the AEF department.

Master’s Closure
Students must satisfy all UIS requirements and complete ACC 583 Accounting Capstone. University policy requires students who do not complete ACC 583 in one semester to enroll in ACC 584 Accounting Capstone Continuing Enrollment (zero credit hours, one billable hour) each fall and spring semester until the capstone course requirements are met.

Graduate Certificate

- Graduate Certificate in Public Utility Management and Regulations
Online Degree

- Graduate Certificate in Public Utility Management and Regulations

Courses

ACC 211. Introduction to Financial Accounting. 3 Hours.
Study of the basic principles, concepts, and procedures for collecting and recording accounting information, and preparation and analysis of financial statements. Examines the accounting cycle and accounting for assets, liabilities, and owners equity.

ACC 212. Introduction to Managerial Accounting. 3 Hours.
Study of the managerial accounting concepts and procedures that aid managers in planning operations, controlling activities, and making decisions for economic entities. Course Information: Prerequisite: ACC 211 or equivalent.

ACC 311. Administrative Uses of Accounting. 4 Hours.
For students whose objectives are to develop an understanding of uses of accounting information for planning, control, and decision making. Emphasizes accounting processes and measurements, significance and limitations of financial statements, and managerial accounting concepts and applications. Course Information: Not intended for students with Freshman or Sophomore standing.

Development and application of accounting theory to issues related to financial statements, assets, liabilities, and measurements of income. Special topics include time value of money and inventory methods. Course Information: Prerequisite: ACC 211 and ACC 212, or equivalent with a grade of C or better.

ACC 322. Intermediate Financial Accounting II. 3 Hours.
Development and application of accounting measurement and reporting issues related to financial statements. Special topics include investments, revenue recognition, accounting for income taxes, accounting for pensions, accounting for leases, accounting for changes and errors and full disclosure. Course Information: Prerequisites: ACC 321 with a grade of C or better.

Development and application of accounting measurement and reporting issues related to financial statements. Special topics include inventory, property, plant and equipment, depreciation, intangible assets, current liabilities and long-term liabilities, stockholder's equity and earnings per share. Course Information: Prerequisite: ACC 321 with a grade of C or better.

ACC 335. Accounting Information Systems. 3 Hours.
Information system concepts, including accounting transaction cycles and documentation techniques for various technologies, recent trends impacting computerized accounting systems and data management tasks will be addressed, emphasis on design of systems that provide adequate internal control. Course Information: Prerequisites: ACC 211 and ACC 212, or equivalent with a grade of C or better, and familiarity with spreadsheet application software and database software.

ACC 390. Topics in Accountancy. 1-4 Hours.
Each topic covers a different accountancy concept and may include an intensive workshop. Course Information: May be repeated for an indefinite number of hours, but particular topics must differ.

ACC 421. Governmental and Nonprofit Accounting. 3 Hours.
Major concepts, principles, and objectives of accounting for governmental and other nonprofit entities, with major emphasis on external reporting issues. Course Information: Prerequisite: ACC 321 with a grade of C or better.

ACC 433. Intermediate Managerial Accounting. 3 Hours.
Evaluation of accounting information to assist internal management decision making and use of managerial accounting systems. Includes cost and profit behavior relationships, managerial decisions, budgeting process and costing systems. Course Information: Prerequisites: ACC 211 and ACC 212, or equivalent with a grade of C or better.

ACC 443. Federal Income Taxation. 3 Hours.
Identify, analyze, and apply basic federal income tax concepts as they affect individuals. Course Information: Prerequisites: ACC 211 and ACC 212, or equivalent with a grade of C or better.

ACC 454. Regulation and the American Economy. 3 Hours.
Examination of the variety of ways in which economic and business activities are regulated by government agencies. Includes discussion of activities related to consumers in their everyday lives and are designed to protect customers and promote economic efficiency. Examines regulation matters in a number of industries including telecommunications, banking, health care, insurance, environmental issues, energy, railroads, and airlines.

ACC 464. Auditing Concepts and Responsibilities. 3 Hours.
Discussion of generally accepted auditing and attestation standards as promulgated by the various standard setters. Introduces the role of the attest function in society and provides knowledge of concepts and techniques underlying the audit process. Course Information: Prerequisites: ACC 321 and ACC 335 with a grade of C or better, or instructor approval.

ACC 466. Information Systems Auditing. 3 Hours.
Study of information technology auditing and management best practices of today's highly complex information systems environment. Includes the audit process, system development, project management, contracts, legal aspects, governance, internal controls, strategic planning, risk assessment, operation management, service desk management, security and disaster recovery planning. Course Information: Prerequisites: ACC 211 and ACC 212 or equivalent; ACC 335 or MIS 352, or instructor approval.

ACC 490. Topics in Accountancy. 1-4 Hours.
Each topic covers a different accountancy concept and may include an intensive workshop. Course Information: May be repeated for an indefinite number of hours, but particular topics must differ.

ACC 499. Tutorial. 1-4 Hours.
Intended to supplement, not supplant, regular course offerings. Students interested in a tutorial must secure the consent of the faculty member concerned before registration and submit any required documentation to him or to her. Independent directed study. Course Information: May be repeated to a maximum of 4 hours.

ACC 501. Advanced Utilities Regulation. 3 Hours.
Examination of the revenue requirement issues facing regulators and the managers of public utilities. Includes development of an understanding of regulation through an interdisciplinary approach - drawing on economics, finance, law and accounting to achieve an integrated understanding of regulation in our economic society. Course Information: ACC 501 will count only as Business and Administration Topics credit for the master's degree in Accountancy.
ACC 502. Advanced Utilities Regulation II. 3 Hours.
Examination of the pricing issues facing the managers and regulators of public utilities employing an interdisciplinary approach. Includes exploring the pricing and economic welfare aspects of rate design issues facing regulatory community and the variety of solutions both in theory and practice. Course Information: ACC 502 will count only as Business and Administrative Topics credit for the master's degree in Accountancy.

ACC 503. Advanced Regulation - Financial Issues. 3 Hours.
Discussion of the accounting and financial issues connected with the operation of regulated utility business. The focus is on the special accounting and financial aspects of operating a utility under the regulatory rules of the SEC, FASB and IRS.

ACC 504. Advanced Regulation - Capstone. 3 Hours.
Evaluation of policy problems utilizing an interdisciplinary approach. Includes a selection of cases to develop/understand the level of analysis and perspectives required to evaluate policies that are currently addressed by state and federal regulatory commissions. Course Information: Prerequisites: ACC 501, ACC 502, and ACC 503 with a grade of C or better. Will count only as Business and Administrative Topics credit for the master's degree in Accountancy.

ACC 505. Fundamentals of Business Decision Making. 4 Hours.
Discusses relevant elements of statistics, microeconomics, and accounting as they apply to administrative justification of decisions. Topics include data description, probability, sampling, supply and demand, and fundamentals of financial and managerial accounting such as financial statements and profitability analysis.

ACC 508. Seminar in Managerial Accounting. 3 Hours.
Evaluation of issues concerning planning, control, and decision-making for routine and strategic decisions, with special emphasis on behavioral accounting practices. Includes development of special topics in managerial accounting areas. Course Information: Prerequisites: ACC 433 with a grade of C or better. Restricted to Graduate and Doctoral - Springfield, and Graduate - Peoria.

ACC 509. Management Accounting. 3 Hours.
Study of planning and internal management decision making and the use of accounting systems for control. Course Information: This is a Core required course for MBA degree. Not accepted toward requirements of MA:ACC degree. Prerequisites: Completion of ACC 311 or equivalent; completion of or concurrent enrollment in ECO 315 or equivalent and BUS 501 (a prerequisite for MBA students only). Peoria cohort students must complete ACC 311 or equivalent and ECO 315 or equivalent prior to enrolling in this course. Restricted to Graduate and Doctoral - Springfield, Graduate - Peoria.

ACC 511. Accounting Research & Analytics. 3 Hours.
Development of accounting research skills employing accounting standards and guidance. Includes application of accounting analytics to estimating, forecasting, and predicting the effect of an event on entities' performance; also, includes presentations and written reports on accounting issues. Course Information: Prerequisites: ACC 321.

ACC 512. Internal Auditing. 3 Hours.
This course studies the development of the assurance function as it relates to the internal audit profession. The course includes the study of financial statement assertions, audit evidence and documentation, audit sampling, internal control, internal audit standards, and the application of audit techniques. Course Information: Prerequisite: ACC 211 and ACC 212 with a grade of C or better, or instructor approval. Restricted to Graduate and Doctoral - Springfield, and Graduate - Peoria.

ACC 513. Seminar in Internal and Operational Auditing. 3 Hours.
Study of the development of the internal audit profession and governmental auditing. Includes the study of internal audit standards, governmental audit standards, and the application of audit techniques in performing preliminary surveys, compliance, and operational auditing. Course Information: Prerequisite: ACC 464 with a grade of C or better, or instructor approval. Restricted to Graduate and Doctoral - Springfield and Graduate - Peoria.

ACC 518. Business Context of Acc. 3 Hours.
Develop understanding of how accounting interacts with the business environment, with specific focus on corporate governance, risk analysis, strategic and operational planning, and internal control issues. Course Information: Prerequisite: ACC 211 and ACC 212 or ACC 311.

ACC 521. Seminar in Governmental and Nonprofit Accounting. 3 Hours.
Analysis of the literature for accounting and reporting for governmental and nonprofit entities, including topics in financial analysis and disclosure quality. Course Information: Prerequisites: ACC 321 with a grade of C or instructor approval. Restricted to Graduate and Doctoral - Springfield, and Graduate - Peoria.

ACC 522. Seminar in Financial Accounting. 3 Hours.
Study of the history and development of financial accounting theory. Various theories of financial reporting and disclosure are presented and compared. Topics include income measurement, asset valuation, liabilities, cash flows, ethical responsibilities, and international financial accounting convergence. Course Information: Prerequisite: ACC 324 with a grade of C or better or instructor approval.

ACC 523. Advanced Financial Accounting. 3 Hours.
Application of accounting concepts and principles to a variety of business problems and forms of business organizations including partnerships, business combinations, consolidations, and foreign operations. Course Information: Prerequisite: ACC 324 with a grade of C or better, or instructor approval. Restricted to Graduate and Doctoral - Springfield and Graduate - Peoria.

ACC 524. Advanced Auditing. 3 Hours.
Discussion of auditing concepts/standards: risk assessment, developing planned responses, performing procedures to obtain/evaluate evidence, and forming conclusions/reports. Includes analytical procedures, internal controls, information technology, attestation and review engagements, and auditor responsibility. Course Information: Prerequisites: ACC 464 or equivalent with a grade of C or better. Restricted to Graduate and Doctoral - Springfield and Graduate - Peoria.

ACC 531. Fraud Examination. 3 Hours.
Learn basic fraud concepts/schemes. Fraud/Forensic accounting is becoming an increasingly important area for companies in all industries. This course will enable individuals to gain an understanding of what kinds of frauds are being committed, and what to look for when trying to uncover them. Course Information: Prerequisite: ACC 211 and ACC 212, or equivalent with a grade of C or better. Restricted to Graduate and Doctoral - Springfield and Graduate - Peoria.

ACC 535. Advanced Accounting Information Systems. 3 Hours.
Application of techniques and tools regarding implementing accounting information systems in an organization. Topics include: data modeling, databases, ERP systems, risk assessment, and ethical implications of information technology.
ACC 536. Data Analytics in Accounting. 3 Hours.
Development of an understanding of accounting analytics concepts and skills regarding analytic techniques, data mining, communication of accounting data analysis results, data ethics issues, and implication of changes in digital technologies on accounting and auditing fields.

ACC 544. Advanced Corporation and Partnership Taxation. 3 Hours.
Identify, analyze and apply basic federal income tax concepts affecting business decisions of corporations and partnerships. Advanced development of basic concepts introduced in ACC 443. Course Information: Prerequisites: ACC 443 or equivalent with a grade of C or better. Restricted to Graduate and Doctoral - Springfield and Graduate - Peoria.

ACC 546. Tax Research. 3 Hours.
Identify, analyze and apply advanced federal income tax concepts with major emphasis on the development of tax research skills. Other topics include tax planning and ethical responsibilities of a tax professional. Course Information: Prerequisites: ACC 443 or equivalent with a grade of C or better. Restricted to Graduate and Doctoral - Springfield and Graduate - Peoria.

ACC 550. Professional Education and In-Agency Seminars. 1-6 Hours.
A maximum of six hours credit may be earned by attending professional education seminars and courses on accounting topics. To receive credit, the student must complete the course assignments identified in the course outline and successfully complete the course assessments. Course Information: May be repeated to a maximum of 6 hours. Restricted to Graduate and Doctoral - Springfield and Graduate - Peoria.

ACC 553. Commercial Law I. 3 Hours.
Study of legal principles and procedures necessary to resolve problems inherent in business transactions with related accounting and auditing implications, emphasizing primary legal subjects important to professional accountants (e.g. contracts, sale of goods, commercial paper). Involves use of case studies and analysis. Course Information: Prerequisites: ACC 464, or equivalent with a grade of C or better or with instructor approval. Restricted to Graduate and Doctoral - Springfield and Graduate - Peoria.

ACC 556. Commercial Law II. 3 Hours.
Study of legal principles and procedures regarding secured transactions, real estate and debtor/creditor rights and remedies, bankruptcy, business entities including partnerships, corporations, and LLCs, Federal Securities Regulations and the Sarbanes-Oxley Act, accountants' legal and professional responsibilities, real property, employment and estates and trusts. Further develops the use of written expression to analyze business transaction problems and report resolutions.
