

# Management Information Systems

## The Bachelor's Degree

The bachelor's degree provides students with both a foundation in business, and skills in management information systems, rather than a foundational focus on computer science. The skill set combination prepares students to provide solutions and achieve goals for companies, non-profit organizations, and government agencies. The B.S. in MIS degree program also equips students with expertise from a holistic business perspective, versus merely a micro-level or science perspective, and will allow them to combine their knowledge of computing and organizations to bridge the gap between technical and business specialists. The B.S. in Management Information Systems may be earned online, blended, or through a combination of online and blended modes of delivery.

## Advising

New students must contact the department for initial advising to plan a program of study that reflects their interests and satisfies degree requirements. Students are also required to access the Degree Audit System throughout their college career to verify that degree requirements are being met.

The College of Business and Management and the University of Illinois Springfield have a team of advisors ready to assist students in achieving their academic and career preparation goals. Advising services are customized based on the level and location of the student.

Refer to the Undergraduate **Academic Advising - College of Business and Management** for resources to help you succeed in achieving your academic goals. CBM strictly enforces prerequisites.

## Grading Policy

The Management Information Systems program has minimum grade requirements as noted in the degree requirements' sections outlined below. For questions related to the grading policy, please contact your advisor.

## Degree requirements

All majors in the College of Business and Management require foundation knowledge in accounting, economics, mathematics, and statistics. Several of these courses also fulfill UIS general education requirements. Students must earn a minimum grade of C- in each course and a cumulative GPA of at least 2.00 across all foundation courses. UIS courses that satisfy the foundation knowledge requirements include:
